

This model is a 50% version of Harry Barr's popular "Hangar Rat" - Suitable for small venues and lounge rooms.

TRIMMING

Fly in right-hand circuits - with 4-5mm right rudder. Adjust balance with clay on nose.
 [Use 18" (457mm) long strand of 1mm wide rubber before tying into loop.]

LAMINATED RIBS

Draw airfoil on block and cut with bandsaw. Boil 2 balsa sheets, brush with pva, place between block halves (protect block with cling-film), bind with masking tape and pop in microwave with a glass of water (vital to absorb excess energy) 1-2 minutes. Slice ribs over block.

wing-ribs 1mm deep, laminate from 2 x 0.5mm sheets between shaped blocks
 Centre ribs full-depth 0.5mm medium

Minnie-Mouse
